

Shakespeare Primary School

Year 3 Newsletter Summer Term 2022

Don't Forget...

- Please continue to encourage your children to use their Read and Respond Book to complete homework, learn spellings and read four times a week.
- Lots of our exciting moments are tweeted. Follow us at @shakespearels9
- The school website has an E-safety section with a comprehensive list of ideas of how to keep your child safe on the internet. Please take a look.

Important Dates

- Monday 18th April – Bank holiday
- Monday 2nd May – Bank holiday
- Tuesday 3rd May – 3S Rethink food trip
- Wednesday 4th May – Parents evening
- 9th-12th May – Y6 SATs week
- Tuesday 10th May – 3C Rethink food trip
- Tuesday 24th May – 3L Rethink food trip
- Friday 27th May – 3pm Break up for half term

Our Learning Project for Summer 1 is...

Know your nutrients

How can our food choices keep our body and world healthy?

We will be learning all about how the food choices we make influence the health of our bodies and the world. We will describe the five main food groups and be able to explain that a healthy, balanced diet is made up of the correct amounts of each food group and learn how consuming this diet helps us to maintain a body which is able to grow and repair. We will explore how food package labels support us in making informed food choices. Following on from learning about our own bodies, we will explore how the food we consume is grown all around the world, developing our understanding of how connections are made between local, national and global communities, and considering how this affects the health of the planet. As geographers, we will be learning about biomes, climate and the Fairtrade initiative, discovering how different factors influence the types of food that are grown in different parts of the world. Our knowledge of Fairtrade will be improved even further in our English lessons as we read *The World Came to My Place* before moving on to read *Precious and the Monkeys* by Alexander McCall Smith. We are also extremely excited to begin our new DT project, evaluating, designing and making a brand-new healthy bread product for the market. We'll be considering which filling options will be popular and healthy before making either a wrap, sandwich or pitta to eat. In computing, we will link all of our learning from our geography lessons together as we use a green screen to write, rehearse and present our own weather forecasts! Hopefully, the sun will keep shining all half term!

Maths

- Measurement of length; Perimeter; Fractions

Other Areas of Learning

- PE – Athletics and invasion games skills
- PSHE – Identity, society and democracy: Celebrating difference
